STANDARDS

Sharps containers

**NF EN ISO
23907-1 : 2019**

Our products achieved approval under the new European Standard ISO 23907-1: 2019.

NF LABEL

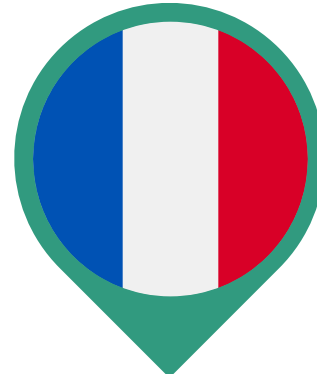

NF label (NF 302 Mark) is the highest level of security that you will find on sharps containers.

ADR / UN 3291

ADR legislation specifies the conditions that must be met by containers used when transporting infectious or associated clinical waste by land.

Made in France

Sharps containers and mounting brackets are made in France

Did you know ?

**PAROLAI STIL'ECO is
the only French
manufacturer with
the NF LABEL**

PACTO + RANGE

A new range, focused on a new lid

100 % made in France.

PACTO + RANGE

A new range, focused on a new lid

A range focused on optimizing and strengthening security!

Assembling tips and safety indicators (a commun lid for our 4 references) :

- The STIL'ECO logo placed on the lid shows you the right way of assembling your sharps container.
- 4 clicks are heard to ensure you a safe assembling

Daily use

- Leakage barrier systems
- Wide opening

PACTO + RANGE

A new range, focused on a new lid

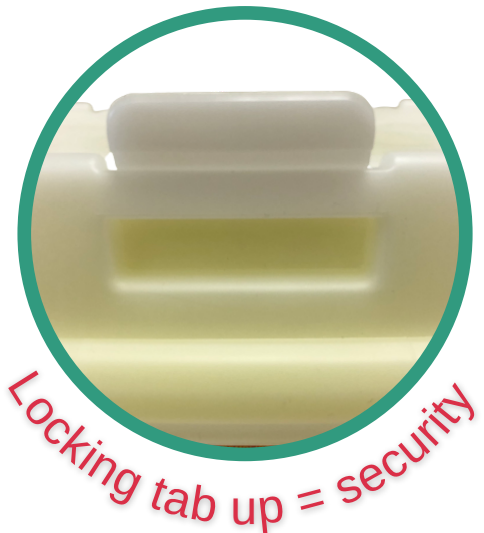

A range dedicated to your needs

Temporary closure :

- 1 audible "click"
- Filling limit with red color
- The raw material we use is translucent and provides additional visual security

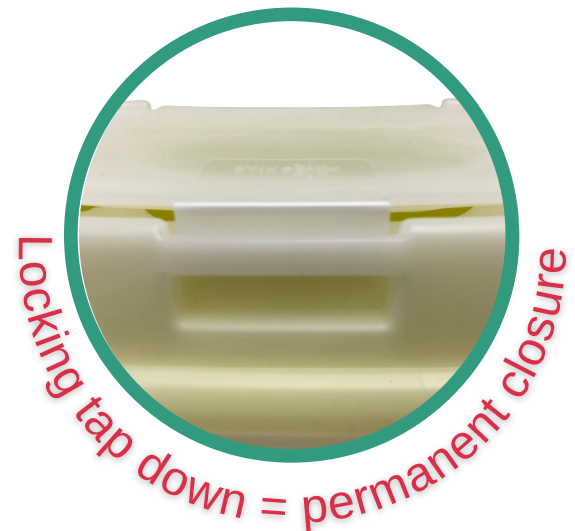

LIMITE

Permanent closure :

- Permanent closure resulting from a voluntary action and having an inviolable system.

Did you know ?

We have
two different closures systems.

You can not sealed the collector unintentionally.

= Filling is always optimized !
